Care Center

by KNUTE NELSON

Since its establishment in 1948, Knute Nelson has cared for aging adults in an environment that focuses on attaining the highest quality of living, and providing services specifically designed to address each person's well being. Our Care Center features three neighborhoods: The Oaks, The Pines, and The Maples. In each neighborhood residents will find living, dining, and activities that are all centrally located, which allows us to provide an enhanced level of service to our residents. In addition to our neighborhoods, we offer these services:

Subacute Center

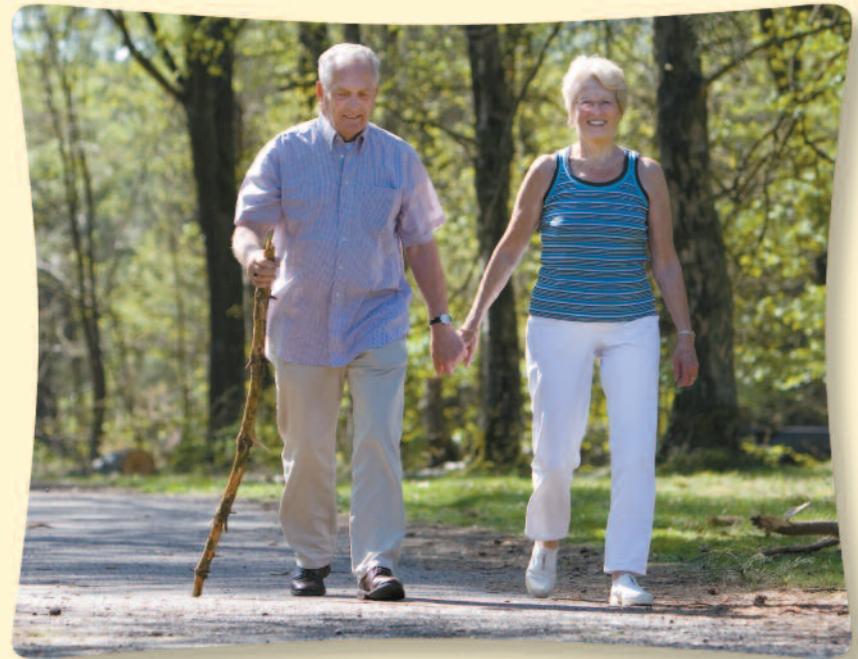

Our subacute therapy and nursing team incorporates an interdisciplinary and progressive approach to ensure the highest quality of care is received by those we serve. Whether you are in need of skilled nursing, and/or physical, occupational, or speech therapy our highly trained team of professionals are here for you. We also offer our signature programming, Return Home, for those who are looking for short term rehabilitation after a surgery.

Secured Memory Care

This household of 12 residents provides a small living environment. Our committed staff have completed a signature memory care training program, H.O.P.E., to focus on delivering compassionate care tailored to the unique needs of those living with Alzheimer's or dementia. A highlight of this household is a sensory room that evokes a peaceful and calming living area. This is a controlled access neighborhood so you can rest assured that your loved ones are cared for in a safe and secure setting.

End of Life Care

We understand that the last days can be difficult, and we want to provide your family, friends and loved ones with privacy in a peaceful environment. Our Care Suites, made available to hospice patients, include a living room, kitchenette and amenities. Visitors are welcome to come and spend time with their loved ones and have an open and inviting area to do so.

Wellness Programming

Wellness programming allows residents to maintain and even improve their personal health while enjoying a higher quality of living.

Spiritual Care Programming

We believe that spiritual care is a vital part of care. Our chaplain supports the faith and spirituality of residents, their families and staff.

Enriching Activities

We host many enriching activities such as happy hour, trips to the movies, shopping, concerts, Let's Go Fishing, and more.

Dining Experience

Our residents enjoy three nutritious meals each day, provided in their neighborhood dining area. In addition to multiple options for a balanced breakfast, residents enjoy restaurant style dining.
